

Yes, a new way of waste separation in Haarlemmermeer!

Subject: **respond to the location of underground waste containers within 6 weeks**

Dear Sir, Madam,

Haarlemmermeer is starting with a new way of waste separation. This plan will be introduced in phases. You already received a letter about the new way of waste separation or you will receive a letter soon. The letter you are currently reading is to inform you that underground waste containers will be installed in your neighbourhood.

Underground waste containers for low-rise buildings

These containers will make it easier for residents of flats or apartments to separate their waste. They too will start with a new way of waste separation.

Check the locations of the waste containers

We have followed certain guidelines when deciding the locations of these waste containers. For example, if there were any cables or pipes in the ground. Or if the containers are safely accessible for residents and garbage trucks. The locations are part of the so called 'ontwerp aan- en toewijzingsbesluit' (draft designation and allocation decision). You can find this decision and a digital map of the locations on www.haarlemmermeer.nl/containerlocaties. This page also provides further information about the guidelines that were followed.

You may respond to this plan within 6 weeks (find the exact date in the Dutch letter)

We have done our utmost to take all guidelines into consideration when deciding on the locations. However, you could still have suggestions for improvement. If that is the case, you can submit a response in the following ways:

By letter: Gemeente Haarlemmermeer, attn. cluster Beheer & Onderhoud, Postbus 250, 2130 AG Hoofddorp

By e-mail: info@haarlemmermeer.nl

By telephone: 0900 1852

Please make sure to include at least the following in your response:

- Mention that you're responding to a specific 'ontwerp aan- en toewijzingsbesluit'. You can find the name of the specific decision in the Dutch letter;
- Indicate which specific location the response is about. You can find the name of the location in the 'ontwerp aan- en toewijzingsbesluit' or in the digital map;
- The reason why you are submitting a response. Please provide arguments to make your case. Be specific about why you disagree with a chosen location;
- Please make sure to include the submission date when responding by letter.

We will send you a confirmation within 2 days after your response has been received.

We aim to provide you with a substantive response within 3 weeks after the closure deadline.

Do you have any further questions?

Information on the new way of waste separation is available in Dutch on

www.haarlemmermeer.nl/afvalscheiden. Please ask someone to help you translate the information.

Do you have questions about the location plan, the 'ontwerp aan- en toewijzingsbesluit' or the procedure? Please call the municipality at 0900-1852.

Kind regards,

On behalf of Haarlemmermeer municipality,

Paul Heuberger
Area manager

On behalf of Meerlanden,

Manager public information
