

Yes, soon you will receive your new waste containers

Subject: **delivery of your new waste containers (find exact date in Dutch letter)**

Dear Sir, Madam,

Yes, you will soon receive your new waste containers for residual waste and plastic, drink cartons and cans. This will help you separate your waste at home. Meerlanden will make sure your separated waste is recycled. This way we are working towards a better future, together. In this letter you can read more about the delivery of the new waste containers and the reclaiming of your old waste container for residual waste.

You will receive 2 waste containers:

- A waste container for residual waste
- A waste container for plastic, drink cartons and cans

The new waste containers have a chip. This allows Meerlanden to weigh the waste containers and keep track of the amount of times the waste containers are emptied. The chips are linked to an address, not to a person. More information can be found on www.meerlanden.nl/privacyverklaring.

DBI Container Service will deliver the containers (find exact date in Dutch letter)

DBI will deliver your new waste containers to your doorstep. You do not need to be home. You will find a sticker on the side of the containers with your address, so you can check which ones are yours.

How do we reclaim your old waste container for residual waste?

Please follow these steps:

Step 1. On **(find exact date in Dutch letter)** you will place your waste container for residual waste out on the street. .

Step 2. Meerlanden will empty your waste container. After emptying, you will leave your waste container on the street and not throw anything in it.

Step 3. On **(find exact date in Dutch letter)** DBI will take your waste container. DBI can only take your waste container if it is empty.

Step 4. You should use your new waste container for residual waste. Old containers for residual waste will no longer be emptied.

**Attention:
important
info!**

When will your new waste containers be emptied?

Plastic, cans and
drink cartons

Once every 2 weeks

Residual waste

Once every 4 weeks

Vegetable, Fruit, Food
and Garden waste

Same as now:
42 times per year

You can find all the new dates for waste collection on afvalkalender.meerlanden.nl. Or download the Meerlanden app on your mobile phone. You can easily turn on notifications, so you will not forget a collection date.

The new containers have stickers showing what waste you can put in

At first, it might be a little tricky to separate your waste. What should go in which waste container? To make things easier, we have put stickers on the waste containers. These stickers show the most occurring types of waste you can put in the specific waste containers. If you still have doubts, you can check the Separation Index added with your Dutch letter. Or look it up online on afvalkalender.meerlanden.nl or in the Meerlanden app.

Please feel free to contact us if you have a question

For questions about your new waste containers, you can call DBI at 085-8224452. Do you have questions about or would you like tips on waste separation? Please feel free to send an e-mail to the grondstofcoaches via grondstofcoach@meerlanden.nl.

Kind regards,

On behalf of Haarlemmermeer municipality,

Paul Heuberger
Area manager

On behalf of Meerlanden,

Manager Public Information

Ja, afval scheiden
daar maken we iets moois van
